Profile Summary

Frontend-focused Computer Science student with hands-on experience building responsive web applications. Skilled in React.js, JavaScript, REST API integration, and modern frontend practices with a strong focus on clean UI and reusable components, along with growing experience in AI-powered systems including semantic search and embeddings.

Experience

Frontend Developer (Project-Based)	2025 – Present
<i>Personal Projects</i>	
- Built multiple frontend applications using React.js with clean component architecture. - Integrated REST APIs using Axios with proper loading and error handling. - Implemented client-side routing using React Router.	

Projects

Nimbus – Weather Application	Live
Tech Stack: <i>HTML, CSS, JavaScript</i>	
- Built a weather app providing real-time and 7-day forecasts using a public weather API. - Implemented city-based search and dynamic dashboard showing wind, UV index, humidity, and sunrise/sunset. - Designed a responsive, card-based UI with clean visual hierarchy.	
Music Player Web Application	Live
Tech Stack: <i>React.js</i>	
- Developed a Spotify-like music player with play, pause, next, and previous controls. - Used Context API for global state management.	
ShopVerse – E-Commerce Website	Live
Tech Stack: <i>React.js, React Router</i>	
- Developed a responsive e-commerce website using API-driven product data. - Implemented product listing and dynamic product detail pages with React Router. - Designed clean product views with pricing, images, and cart actions.	
NeuroNest – AI Second Brain	Live
Tech Stack: <i>MERN, Pinecone, Gemini, Mistral, BullMQ</i>	
- Built a system to save and manage notes, links, PDFs, and images. - Implemented semantic search using vector embeddings and developed AI chat over personal data using RAG. - Visualized connections using a knowledge graph and implemented background processing using BullMQ.	

Technical Skills

Languages: JavaScript, HTML5, CSS3
Frontend: React.js, React Router DOM, Tailwind CSS, Context API
Libraries: Axios
Tools: Git, GitHub, VS Code, Vercel
Concepts: DOM, REST APIs, State Management
AI/ML: Embeddings, RAG, LLM Integration (Gemini, Mistral)
Databases: MongoDB, Pinecone

Education

Lakshmi Narain College of Technology & Science, Bhopal	Expected 2028
B.Tech in Computer Science & Engineering (CSE)	
St. Theresa's Girls School, Bhopal	
Higher Secondary Education
